**To whom it may concern**

Dear sir/madam

**Reference: Mr Jason Louw**

I am responsible for the compulsory undergraduate module, Community-Based Project Module (JCP), of the Faculty Engineering, the Built Environment and Information Technology at the University of Pretoria, South Africa. It entails students have to work at least 40 hours in the community and thereafter reflect on their experiences.

Mr Jason Louw (student no 16054017) was enrolled for the module in 2017. He and his team did a renovation project at Wetnose. He was willing to go beyond what was required of him. He has many desirable personal qualities that will undoubtedly serve him well in any career path.

I give him my highest recommendation.

Kind regards

Dr Martina Jordaan  
Senior lecturer: Community-Based Project Module  
Faculty Engineering, the Built Environment and Information Technology  
University of Pretoria
